

KRISTIЈAN BUJAK

WEB DEVELOPER

Profile

Highly motivated web developer with Bachelor's degree and no working experience. Finding myself most comfortable with React (Hooks) library and Java Spring Boot framework for web development in the last year. Willing to learn new technologies or to improve some that I'm already familiar with.

Competencies: persistent, dedicated, curious, team player, responsible, honest.

Bachelor project as a student - Food ordering application (React Hooks, Redux toolkit, Java Spring Boot, Spring Security with JWT, Hibernate, MySQL):
<https://github.com/bujakkristijan/food-ordering-app>

Internship project at Simple Task doo with two teammates - Food ordering application for collective daily ordering (company):
bitbucket.org/gajinjovan/meal-order-fe/src/develop/
bitbucket.org/gajinjovan/meal-order-be/src/develop/

Responsive cinema application - currently developing in my free time (React Hooks, Java Spring Boot, Spring Security with JWT, Hibernate, MySQL):
<https://github.com/bujakkristijan/cinema-react-java-spring-boot>

Other projects:
<https://github.com/bujakkristijan>

Experience

2022 / April **Simple Task doo, Novi Sad**
Remote software developer
Full-stack developer (Angular, AuthGuard, RoleGuard, Java Spring Boot, REST, Hibernate, Spring Security with JWT, MySQL, Bitbucket)

Education

2011 - 2015 **Electrical and Computer Engineer**
Technical school, Kikinda

2015 - 2022 **Bachelor of Software and Information Technologies**
Faculty of Technical Sciences, University of Novi Sad
